### FAVOURITE PARTS ABOUT WORKING WITH BAFFINLAND

- Hanging out with co-workers in the lounge during off-time
- Spending two-weeks at home helping parents
- Good income

# TOMASIE OQQALAK

## Washbay Attendant

MARY RIVER, BAFFINLAND IRON MINES

Since 2016, Tomasie Oqqalak has been a washbay attendant at the Mary River Mine. In his job, Tomasie is a very important member of his team, operating the mine's washbay, washing, and maintaining the hundreds of vehicles and pieces of equipment at site. He also gets to work outside and perform general labour activities.

When he first started at Baffinland, Tomasie did not have any specialized training related to working at the mine. Since working at Baffinland, he has been trained in basic mechanics and various safety procedures.

Tomasie enjoys life at the camp and the perks of the job just as much as he enjoys his job. When not working, he spends time in the mine site lounge with his co-workers. His favourite memories include all the recreational games played at site and learning and exploring the mine.

He describes working at Baffinland as a fun and exciting place to work. "I'm proud of the mine – it's enjoyable working there!"
