- Above average hearing capacity, good voice tone for radio dispatching

EDUCATION AND TRAINING NEEDED

- Valid driver's licence
- No criminal record

PAUL KABLOONA

Dispatcher

MEADOWBANK, AGNICO EAGLE

Paul currently works as dispatch at the Baker Lake gatehouse, at the beginning of Agnico Eagle's All Weather Access Road (AWAR) that leads to the Meadowbank mine.

He is responsible for monitoring vehicles travelling on the road ensuring the safety of everyone. Paul joined Agnico Eagle in 2008 and has been working as a dispatcher ever since, and although he wants to continue this position, he hopes to one day join the environment department because of his love for the outdoors.

Although it does not happen often, he likes that his job allows him to help people when there are emergencies. Paul is proud of having worked for the company for 10 years, as well as proud of the people he worked with and was able to help over these 10 years. Prior to joining Agnico Eagle, Paul worked at the Jessie Oonark Arts & Craft Store doing screen printing and embroidery.
