EDUCATION AND TRAINING NEEDED

- High school diploma or equivalent
- Required training: apprenticeship

LOUIE TATTUINEE

Maintenance Electrician

MELIADINE, AGNICO EAGLE

Louie is currently a maintenance electrician at the Meliadine Mine. The importance of hard work was instilled in him at a young age, as he always worked even while in school. Before working for Agnico Eagle, he was an electrician for a private company in Rankin Inlet, worked as an electrical trainer, and eventually built up his own company for which he supervised 25 people.

He was interested in working at Meliadine due to the stability of the work while having the opportunity to spend up to two weeks at home at a time, which allows him to spend a lot of time with his family.

To make the most of his job opportunities within the company, Louie has participated in training opportunities including small space training. He plans to keep working for Agnico Eagle until his retirement and hopes he will one day make his way to becoming a supervisor.
